France

Associate professor in Ornamental Horticulture

EXPERIENCE

Since 1st sept. 1998 : Associate professor in Ornamental Horticulture at AGROCAMPUS OUEST Angers

- *Teaching : Ornamental horticulture and cellular biotechnology.*
- *Research: in IRHS 'Genetic Determinism and Diversity in Ornamentals' group. In vitro techniques applied to ornamental (Pelargonium, Rosa) genetic resources conservation. In charge of the cryopreservation program.*

1996-1998: CIRAD (Centre de Coopération Internationale en Recherche Agronomique pour le Développement)
researcher detached in CATIE (Centro Agronomico Tropical de Investigación y Enseñanza, Costa Rica)

- *In charge of biotechnologies research for banana improvement.*
- *Supervisor of an MSc student working on cryopreservation of banana cell suspensions.*

1995: Study of the genetic diversity of *Musa* using microsatellites (4 months). CIRAD, Montpellier.

1991-95: Development and study and genetic transformation of banana embryogenic cell suspensions. PhD thesis in CIRAD, Montpellier.

1991: Study of the atmosphere influence onto the development of *Hevea brasiliensis* somatic embryos. DEA training in CIRAD, Montpellier (9 months).

LABORATORY SKILLS

Cryopreservation : droplet-vitrification, encapsulation-dehydration

In vitro culture: micropropagation, meristem culture, somatic embryogenesis, cell suspensions

Histological techniques

QUALIFICATION

2011: Habilitation, University of Angers

1995: PhD in Basis of plant production. Ecole Nationale Supérieure Agronomique de Montpellier (Agro M.).

1991: D.E.A. Basis of plant production: biotechnologies and plant breeding Université des Sciences et Techniques du Languedoc. Montpellier

1990: Engineer in Agronomy, specialised in horticulture. Agro. Montpellier

Languages: English, Spanish, Italian: good level.

Abroad stays: 1996-1998: Costa-Rica (Turrialba) and 1974 - 1979 : Italy (Milan).

Some publications in international papers
