

AUBRY Catherine
(Associate professor, University of Angers)

Date of birth: 1961 – 11 – 01
Tel number: (33) 2 49 18 04 80
e-mail address : c.aubry@univ-angers.fr
Laboratory: IRHS 'Research Institute of Horticulture and Seeds'.
BGL group « Biologie de la Germination et de la Levée »
Germination and Seedling Establishment Biology

Projects:

See the BGL team page

University degrees:

1986: **Master** in Plant Molecular and Cellular Biology, University of Paris XI, ORSAY France
1990: **PhD** in Life sciences, University of Paris XI, ORSAY (France)

Professional position:

1990: **Associate professor** in Genetics, Faculty of Sciences, University of Angers (France)

Publications:

- Youssef, C., **Aubry, C.**, Montrichard, F., Beucher, D., Juchaux, M., Ben, C., Prosperi, J.M., Teulat, B. (2015) Cell length instead cell number becomes the predominant factor contributing to hypocotyl length genotypic differences under abiotic stress in *Medicago truncatula*. **Physiol. Plant.** Sep 21, DOI: 10.1111/ppl.12379.
- Teulat-Merah B., Le Paven M.C., Ricoult C., **Aubry C.**, Peltier D. (2011). cDNA-AFLP profiling in the embryo axes during common bean germination. **Biol. Plant.** 55(3): 437-447.
- Bolingue, W., Rosnoblet, C., Ly Vu, B., Leprince, O., **Aubry, C.**, Buitink, J. (2010). MtSNF4b connects after-ripening and constitutive defense responses in seeds of *Medicago truncatula*. **Plant J.** 61: 792-803.
- Rosnoblet, C., **Aubry, C.**, Leprince, O., Ly Vu, B., Rogniaux, H. and Buitink, J (2007) The regulatory gamma subunit SNF4b of the sucrose nonfermenting related kinase complex is involved in longevity and stachyose accumulation during maturation of *Medicago truncatula* seeds. **Plant J.**, 51: 47-59.
- Chateigner-Boutin A.L., **Aubry C.**, Morère-Le Paven M.C. and Jalouzot R. (2003)

Molecular cloning and expression of a gene encoding a Germin-like Protein in common bean (*Phaseolus vulgaris* L.), in "The Biology of Seeds: recent research advances". **CAB International publishing**, pp131-140.

- **Aubry C.**, Morère-Le Paven M.C., Chateigner-Boutin A.L., Teulat-Merah B., Ricoult C., Peltier, D., Jalouzot, R. and Limami, A.M. (2003). A gene encoding a germin-like protein, identified by a cDNA-AFLP approach, is specifically expressed during germination of *Phaseolus vulgaris*. **Planta** 217: 466-475.

- Métails I., **Aubry C.**, Hamon B., Peltier D. and JALOUZOT R. (2001) Assessing common bean genetic diversity using RFLP, DAMD-PCR, ISSR, RAPD and AFLP markers. in "Proceedings of the international symposium on molecular markers for characterising genotypes and identifying cultivars". **Acta Hort.** 546: 459-461.

- Métails I., **Aubry C.**, Hamon R., Jalouzot R., Peltier D. (2000) Description and analysis of genetic diversity between commercial bean lines (*Phaseolus vulgaris* L.). **Theor. Appl. Genet.** 101: 1207-1214.

- Métails I., **Aubry C.**, Hamon R., Peltier D., Jalouzot R. (1998) Cloning, quantification and characterization of a minisatellite DNA sequence from common bean *Phaseolus vulgaris* L. **Theor. Appl. Genet.** 97: 232-237.

- Renou J.P., **Aubry C.**, Serveau M., Jalouzot R.(1997). Evaluation of the genetic variability in the genus *Pelargonium* using RAPD markers. **J. Hort. Sci.**, 72, 2, 229-237.

- Jalouzot R., Pou M.A., **Aubry C.**, Laval-Martin D. (1994). The NAD kinase: a phosphoryltransferase displaying an oxido-reductase activity. – An electrophoretic study. **Arch. Biochem. Biophys.**, 309, 2, 281-287.

- **Aubry**, J. De Buyser, C. Hartmann, Y. Henry, Rode A. (1989). Changes in the molecular organization of the mitochondrial genome in wheat albino tissue cultures derived from pollen embryos and in plants regenerated from these cultures. **Plant Sci.**, 65, 103-110.

- Hartmann C., Henry Y., De Buyser J., **Aubry C.**, Rode A. (1989). Identification of new mitochondrial genome organizations in wheat plants regenerated from somatic tissue cultures. **Theor. Appl. Genet.**, 77, 169-175.
